Guaranteed for residential
kitchens and bathrooms.

EGGER PRO Laminate Aqua+

EGGER PRO Laminate Aqua+ provides a moisture resistant flooring solution and an easy clean, cost-effective alternative to tiles.

Aqua+ is available in 18 eye-catching decors in a variety of wood grain, stone or ceramic decors across 2 different board sizes in 8 mm thickness (class 32). Application areas include bathrooms, kitchens and living rooms, as well as bars, restaurants and retail spaces.

Aqua+ is similar in look and feel to laminate flooring and can be installed in the same manner as a standard floating floor. The main difference is the composition of its core board. The High Density Fibreboard (HDF) Aqua+ core is impregnated with water resistant resins. This makes Aqua+ 5x more resistant to water swelling than a standard laminate.

Cleaning has never been easier

Thanks to its water resistant core board and reduced swelling behaviour, Aqua+ floors can be cleaned with steam.*

Typical laminate flooring is sensitive to heat and moisture, therefore the humidity from a steam cleaner can warp and damage the HDF Core board.

* Contact with steam in any one area should not last more than 30 seconds. In commercial areas, moving scrubbing machines and vacuum cleaners of up to 100kg can be used with floor cleaner "Clean It".

Features & benefits

- 18 decors, ceramic and wood styles.
- The ONLY laminate floor that can be steam cleaned!
- Two board sizes.
- More cost-effective than glued and grouted ceramic tiles.
- Floating and flexible installation with UNI fit!
- 5x more resistant to water swelling than a standard laminate.
- Easy to clean and maintain with or without a steam cleaner.
- Flooring can be glued in commercial areas.
- Lifetime residential guarantee and 5 year commercial guarantee.

UNI fit!

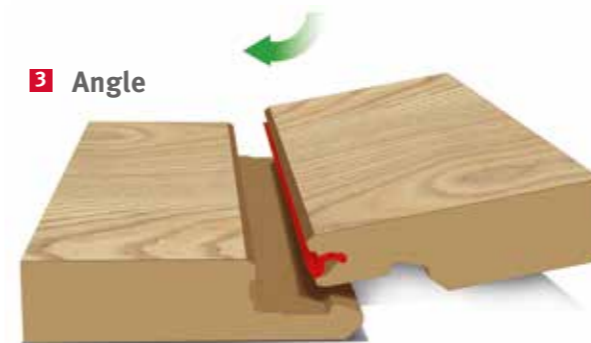

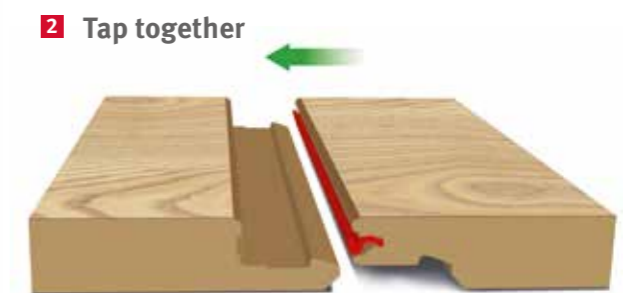

EGGER flooring is installed using UNI fit!, which means floors are installed 40% faster than other systems. This saves time and money. It allows the easy and quick installation of laminate flooring (floating or flexible).

Key advantages

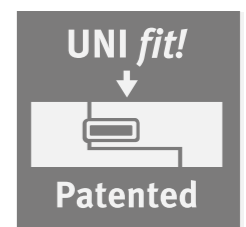

- No tools are required.
- Easy to install around doors, pipes and radiators.
- Multiple installers can work simultaneously in one room.
- Features an extremely sturdy connection.

1 system, 3 connection methods:
